---

Mr. Moore:

I inadvertently omitted Mr. Hoover's e-mail to me from the e-mail I sent you earlier this morning, therefore, I am re-sending my e-mail to include a copy of Mr. Hoover's e-mail to me. Please see below.

Richard F. Bergner

Mr. Moore:

After you contacted Mr. Craig Hoover at Texas Molecular, he left a voice mail message for me that indicated he had not read my letter of October 1, 2007, outlining National Oil Recovery Corporation's position *vis-a-vis* Texas Molecular.

In view of such, I called Mr. Hoover and was surprised to learn that he had not received my letter. Apparently, the address I used was the address to which my office has sent payment for Texas Molecular invoices and for some reason personnel at that office did not forward the letter to Mr. Hoover.

At any rate, I made a copy of my October 1, 2007, letter available to Mr. Hoover and he responded as set out below.

I will keep you advised as to this matter.

Richard F. Bergner
